Project Overview

Project Name: AI-FITTRACK

Project Description: An AI-powered AI-FITTRACK Assistant that helps users search frequently asked questions and receive relevant answers using Google Gemini AI. The system allows users to register, log in, manage AI-FITTRACKs, and obtain AI-generated responses.

Project Version: 1.0

Testing Period: 21/09/2026 to 26/09/2026

Testing Scope:

- User registration and login functionality.

- AI-FITTRACK creation, management, and retrieval.

- Al-generated answers using Google Gemini API.

- Semantic search for relevant AI-FITTRACK information.

- MongoDB database storage and retrieval.

- Frontend and backend API integration

  Testing Environment:

  Field Details

  URL / Location Localhost:2000

  Credentials Registered Username / Email and Password

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User Registration	Enter name, email, password and click Register.	User account should be created successfully.	To be recorded during testing.	Pending
TC-002	User Login	Enter registered email and password.	User should log in successfully.	To be recorded during testing.	Pending
TC-003	AI-FITTRACK Creation	Enter AI-FITTRACK question and answer and submit.	AI-FITTRACK should be saved in MongoDB.	To be recorded during testing.	Pending
TC-004	AI Answer Generation	Enter a question and submit to Gemini AI.	Relevant AI-generated answer should be displayed.	To be recorded during testing.	Pending
TC-005	Semantic Search	Enter a question related to existing AI-FITTRACKs.	Relevant AI-FITTRACK results should be retrieved.	To be recorded during testing.	Pending
TC-006	Database Verification	Check saved users and AI-FITTRACKs in MongoDB.	Stored records should be retrieved correctly.	To be recorded during testing.	Pending

Bug racking:

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	AI answer generation failure, if encountered.	Enter a question and submit the AI request.	Medium	To be tested	Verify Gemini API configuration.
BG-002	Login failure, if encountered.	Enter registered credentials and click Login.	Medium	To be tested	Verify authentication and validation.
BG-003 AI-FITTRACK	not saved, if encountered.	Create an AI-FITTRACK and check MongoDB.	High	To be tested	Verify database

Signature: [Tester's Signature]

Notes:

- Test all functionalities using valid and invalid inputs.
- Record the actual results after testing.
- Update the Pass/Fail column based on the actual test results.
- Obtain approval from the project guide or project manager.
